

Kick Starter Planning Session

Our **Kick Starter Planning Session** has been designed for those newly engaged couples, who would like to draw on the expertise of a seasoned professional & set themselves up for success when it comes to planning their dream day.

In this 2-hour session, we would discuss:

- Your initial thoughts & plans for your day
- What is important to you & what isn't important to you
- What challenges you foresee
- We would develop a draft **wedding budget breakdown** to get you started and from there, you can use this as a **planning checklist** as you move throughout the planning process.
- You would have the opportunity to ask any questions about planning a wedding & **seek any vendor recommendations.**

In order to maximise our time together, we ask that you come prepared with a few wedding images you are inspired by.

Pricing:

\$495 + GST (excluding travel, if any)

Should you wish to book our Full Planning & Styling Package following the completion of this session, the Kick Starter Planning Session would become complimentary & removed from your final invoice.
